

WE'RE ERASMUS+

The path we began this year, betting on the internationalization of our school, has culminated with the Erasmus+ KA122 approval.

In this course, we have prepared ourselves by attending capacitation sessions.

The urban development and sustainability project was prepared: Step2Hogar.

We've searched for reliable European partners who share objectives, to carry out the mobility.

In the 2023/24 academic year we were an European Host School.

In the 2024/25 academic year we will be an Erasmus+ center. And our students will be able to carry out mobilities co-financed by the European Union. Next year we will begin this adventure that will open "El Hogar" to Europe.

NEXT YEAR WE WILL OPEN "EL HOGAR" TO EUROPE.
