

Arts, science and dolphins

Our students from the Slovak Skola Sladkovicovo and the students from the host families spent an incredible day in The City of Arts and Science. They went to "Oceagràfico" where they saw an amazing dolphin show.

**Forbidden not to
touch,
not to feel,
not to think...**

In the afternoon our students went to Principe Felipe Museum. They saw a show about electricity in the theater of the City of Arts and Sciences. Afterwards they visited the museum together.

WALKINGTOUR

The Slovak students of Spojena Skola Sladkovicovo with our host-families students shared a tour in the historic center of our city.

We had a sunny day, and everybody together went to the "Estació del Nord", Valencia's City Hall, the "Mercat Central", The "Lonja" of Silk, etc...

**Explore, share
and discover.**

We are at 12 P.M at gothic door of Valencia's cathedral to witness the Water Court, UNESCO's intangible heritage of humanity.

After our tour we went to the Serrans Towers to have lunch.

An intense morning full of beautiful memories.

Erasmus +

My first time..

One of moments interesting of the arrival to the Slovak student was being able to share a very special moment for them in #ErasmusDays.

The Slovak students were very excited to go to see the sea. For some of them it was the first time they had seen him.

**..and this is the
Mediterranean
Sea.**

The beach was a meeting point for our students with slovak Erasmus+ students. They walked, played volleyball and enjoyed unforgettable moments together.
