TOGETHER IN ALANNO

Ten students from our school and ten from the Istituto Omnicomprensivo di Alanno (Italy) spent an inspiring week in Alanno, in the Abruzzo region. The visit began with a moving welcome concert, featuring the Ode to Joy and traditional Italian songs performed by the host students. The school principal and the Mayor of Alanno warmly welcomed everyone, highlighting the value of Erasmus+ in building a shared European identity.

**Where music,
science and
friendship bring
Europe closer.**

Students also visited the school's laboratories, agricultural training areas, and meteorological observatory, learning how science and sustainability are part of everyday education in Alanno. They discovered the town's artistic heritage and shared unforgettable moments of cooperation and cultural exchange—a true celebration of learning and friendship.

SCIENCE & NATURE ON THE TIRINO RIVER

Last week, ten students from Colegio Hogar Nuestra Señora del Rosario (Spain) and ten students from the Istituto Omnicomprensivo di Alanno (Italy) came together in the heart of Abruzzo, in the beautiful village of Campestrano, L'Aquila region, to take part in our Erasmus+ activity **Drop by Drop**. This day of learning and friendship, the students carried out water quality analyses of the Tirino River, identifying microorganisms sensitive to pollution and discovering the importance of preserving natural ecosystems.

The activity combined scientific learning with environmental awareness, encouraging teamwork, curiosity, and international cooperation.

One of the highlights of the week was the canoe trip along the Tirino River, a peaceful and inspiring experience surrounded by crystal-clear waters and breathtaking landscapes — the perfect setting to reflect on how every drop of water counts.

RIDE THE COAST, SHARE THE EXPERIENCE

Our Erasmus+ students and the Istituto Omnicomprensivo di Alanno enjoyed an unforgettable day exploring the Costa dei Trabocchi, one of the most spectacular stretches of the Adriatic coast. The group took the train to Ortona, and from there rode electric bicycles along the old railway line that now forms a scenic coastal route surrounded by sea, cliffs and olive groves.

E-bike along the stunning Costa dei Trabocchi with friends across Europe.

Along the way, they stopped to visit the traditional "Trabocchi", wooden fishing structures that rise gracefully above the waves and are a true symbol of Abruzzo's maritime heritage. The activity combined sport, nature and culture, strengthening bonds of friendship while discovering the beauty and authenticity of this unique Italian landscape.

BUILDING A SUSTAINABLE FUTURE TOGETHER

Students from Colegio Hogar Nuestra Señora del Rosario shared their "Step2Hogar" project with Italian partners from Istituto di Alanno, focusing on urban sustainability and inclusion. Through activities on art and recycling, mobility, social equity, and ecological impact, they explored creative ways to make cities better for everyone..

EXPLORING PESCARA

Students from Colegio Hogar Nuestra Señora del Rosario and Istituto di Alanno visited Pescara, exploring the Museo Della Genti with its historical artifacts, traditional Abruzzo costumes, rural tools, and recreations of pastoral structures. They also toured the Palazzo del Governo, learning about its art and architecture. Together, they completed the "On the Road" questionnaire with Italian partners, deepening their understanding of urban development.

AMAZING EXPERIENCE IN CUGNOLI

The students participating in our school's **Erasmus+ program** enjoyed a unique day in **Cugnoli**, a charming medieval village and a true gem of the **Abruzzo region** in Italy.

As we wandered through its cobbled streets and ancient stone houses, we were welcomed by the locals and immersed ourselves in the living history of rural Italy.

Our adventure continued at the **Rossa di Sera Farm**, where we joined a **handmade pizza and pasta workshop**. With flour on our hands, we learned traditional recipes and later tasted our own delicious creations. We also visited a small museum meaningful reminder of the traditions and hard work that connect European cultures.

A TRAVELLING BOOK FROM ABRUZZO

During our Erasmus+ mobility in Cugnoli (Abruzzo, Italy), our students were warmly welcomed by the local community. In a small ceremony at the Town Hall, the Mayor of Cugnoli presented our teachers with a beautiful traveling book filled with stunning photographs of the Abruzzo region, to be delivered to our principal as the representative of our school
